WOOD is manufactured from a range of premium quality natural and engineered wood veneer species. Reclaim your environment with the holistic serenity of organic wood.

This innovative wood flooring solution combines the hygienic benefits of seamless flooring with nature’s elegant wood grains, sustaining a timeless appeal for the life of your floor.

*For best results, a sanding coat is recommended prior to applying the final topcoat(s).

Features	Benefits
DURABLE	Resinous flooring systems provide superior chemical and abrasion resistance over pre-engineered floors.
DECORATIVE	WOOD enhances high-performance flooring by adding natural wood grain and texture to complement any environment.
SAFE	WOOD resinous flooring media provides an orange-peel texture that increases the slip-resistance and safety.
HYGIENIC	Resinous flooring systems are wax free and easy to upkeep and clean with just soap and water.
SEAMLESS	Resinous flooring creates a seamless, flowing surface that won't collect dirt, moisture, or germs.
FLEXIBLE	Resinous flooring systems provide a flexible surface that deadens the noise of foot traffic and carts.
RENEWABLE	After years of use, efficiently revitalize your resinous floor by sanding the surface and applying a new topcoat.
